Could you let me know what the status is regarding EPA's approval of Georgia's narrative water quality criteria. Thanks Liz

Liz, as far as you know, we haven't yet heard back from/received approval or denial of the narrative water quality standards yet from EPA, have we? I have not heard anything.

Jennifer and Jay,
Can you confirm if we've heard back from EPA about either of the regulatory/program approvals related to the attached Attorney General certifications?

I believe that the UST one is for the SPA that we received this fall, but want to confirm.

Jennifer, the water one is NOT drinking water like I mentioned on our call (I hadn't seen the cert yet), but narrative water quality standard. I presume we still haven't heard back on that one.
Laura
